(54) Title: METHOD, SYSTEM AND APPARATUS FOR REMOVING IMPURITIES FROM WINE

(57) Abstract: An impurity removal system (10) for purifying wine (12) removable from a wine source (14). The system (10) includes a filtered wine container (16) defined by a collection portion (20) and having an opening (18) for introducing the wine (12) to the collection portion filtration device (22) which is in operable communication between the wine source (14) and the container (16), such that at least a portion of the wine (12) introduced from the wine source (14) is in fluid communication with the filtration device (22) prior to collection in the collection portion (20) of the filtered wine container (16). In operation, the wine (12) is removed from the wine source (14), introduced to the system (10), passed through the filtration device (22) and filtered wine (24) flows into the collection portion (20) of the filtered wine container (16). Vacuum-based and pressure-based filtration systems are also disclosed, as well as a method of removing impurities from wine.

### INTERNATIONAL SEARCH REPORT

International application No.
PCT/US04/13666

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of 5	
Continuation of item 2 of first sheet	)
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons	<b>:</b> :
1. Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:	
2. Claims Nos.:  because they relate to parts of the international application that do not comply with the prescribed requirements to suc an extent that no meaningful international search can be carried out, specifically:	:h
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a	ì).
Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)	
This International Searching Authority found multiple inventions in this international application, as follows:  Please See Continuation Sheet	
<ol> <li>As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.</li> <li>As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.</li> <li>As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:</li> </ol>	
4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: 1-39 and 48-54  Remark on Protest  The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.	

INTERNATIONAL SEARCH REPORT	PCT/US04/13666				
BOX III. OBSERVATIONS WHERE UNITY OF INVENTION IS LACK	ING				
This application contains the following inventions or groups of inventions which are concept under PCT Rule 13.1. In order for all inventions to be examined, the approximation of the content of the property of the content of the co	e not so linked as to form a single general inventive opriate additional examination fees must be paid.				
Group I, claim(s) 1-39 and 48-54, drawn to apparatus for removing impurities.					
Group II, claim(s) 40-47, drawn to method of removing impurities from wine.					
The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:					
The special technical feature of claim 1, impurity removal system, which is shown by the prior art US 4,477,347 A (SYLVA), an X reference, to lack novelty or inventive step and thus does not define a contribution over the prior art.
